

**RESOLUTION OF THE MAYOR AND BOROUGH COUNCIL
OF THE BOROUGH OF MOUNT ARLINGTON, IN THE COUNTY OF
MORRIS, STATE OF NEW JERSEY, OPPOSING THE NEW JERSEY
WATER SUPPLY FLUORIDATION ACT**

WHEREAS, the New Jersey Public Water Supply Fluoridation Act has been proposed in the Legislature as Assembly Bill A-18aa and Senate Bill S-959; and

WHEREAS, the New Jersey Assembly Health and Senior Services has approved A-18aa disregarding the warnings of environmentalists and utility officials testifying before the Committee; and

WHEREAS, the United States government has called for lower levels of water fluoridation following a study published in Environmental Health Perspectives, which found that increased fluoride consumption led to decreased IQ in children. New research has also linked sodium fluoride to cardiovascular disease, the leading cause of death worldwide. The research revealed that fluoride stimulates the hardening of arteries, a disease commonly known as atherosclerosis; and

WHEREAS, the Borough Council of Mount Arlington is concerned about the impact of state-required fluoridation of the Mount Arlington water supply.

NOW, THEREFORE, BE IT RESOLVED by the Mayor and Council of the Borough of Mount Arlington, in the County of Morris and State of New Jersey, that the Borough Council opposes the New Jersey Public Water Supply Fluoridation Act and urges its legislative representatives to protect the residents of the Borough of Mount Arlington from State mandated fluoridation; and

BE IT FURTHER RESOLVED, that the Borough Clerk is hereby directed to mail a copy of this resolution to the Clerks of Morris County municipalities and elected State legislators representing the Borough of Mount Arlington.

I HEREBY CERTIFY this to be a true and correct Resolution of the Mayor and Borough Council of the Borough of Mount Arlington, and adopted on March 20, 2012.

Linda DeSantis, R.M.C.
Borough Clerk
