Re: Borough of Mt. Arlington, County of Morris, State of New Jersey
Dunlap Street Flood Control Improvements
Our Project No.: SCE-5381

Dear Ms. Sendler:

As requested, I have reviewed the eight (8) bid documents for the Dunlap Street Flood Control Improvements that were received on October 7, 2010. The bid review included the evaluation of the bid prices provided by each bidder. Attached is a copy of the bid summary sheet that indicates the three (3) lowest bids of those received. The remaining bids were too high to warrant detailed analysis.

I recommend that Schenley Construction, Inc. be awarded the contract for \$111,508.84 since they were the lowest responsive bidder for the project. It is also my recommendation that funding be provided through the line item for this project, as well as the line item for the Village Center Flood Control project. The Borough Attorney should also review the documents to confirm that everything is administratively complete.

If you should have any questions on the above, please do not hesitate to contact my office.

Very truly yours,
Suburban Consulting Engineers, Inc.
